THURSDAY, JUNE 9

SESSION ONE: ATSA AND RTSA OUTCOMES AND TECHNIQUES

Moderators Joseph Zuckerman, MD, and Richard Friedman, MD, FRCSC

2:00pm The Equinoxe®: Right from the Start- *Joseph Zuckerman, MD*

2:08pm Extreme Biomechanical Testing of the New Laser Cage Glenoid
Sean Grey, MD

2:16pm Surgeon Controlled Factors for Humeral Component Fixation and Stress Shielding
Kenneth Faber, MD, FRCSC

2:24pm Preserve Stem Two-Year Minimum Clinical and Radiographic Outcomes
Mandeep Virk, MD

2:32pm Discussion

2:38pm Stemless Two-Year Minimum Clinical and Radiographic Outcomes
Oke Anakwenze, MD

2:46pm How I Repair the Subscapularis with Stemless aTSA
Mark Tauber, MD, PhD

2:54pm Outpatient Shoulder Arthroplasty: Where Are We and Where Are We Going?
Quin Throckmorton, MD

3:02pm Discussion

3:08pm Panel Discussion: **Optimizing Surgical Outcomes- Tricks Everyone Should Know**
Moderated by Joseph Zuckerman, MD, with panel Peter McCann, MD, Raul Barco, MD, Ben Gooding, FRCS, Sven Goebel, MD, FRACS, Kotaro Yamakado, MD, Hiroyasu Ikegami, MD

3:38pm Break

4:00pm Long-Term Outcomes aTSA vs. rTSA: Is rTSA Survivorship Better Than aTSA?
Pierre-Henri Flurin, MD

4:08pm Rotator Cuff Fatty Infiltration: Impact on aTSA and rTSA Outcomes and Complications
Rick Papandrea, MD

4:16pm Bilateral Shoulder Arthroplasty: aTSA, rTSA One of Each, Which Do Patients Prefer?
Joseph Zuckerman, MD

4:24pm Discussion

4:30pm Is Deltoid Fatigue Real? How aTSA and rTSA Outcomes and ROM Change Over Time
Bradley Schoch, MD

4:38pm aTSA and rTSA Outcomes in Patients with an Intact Rotator Cuff and No Previous Surgery
Richard Friedman, MD, FRCSC

4:46pm Discussion

4:52pm Panel Discussion: **Different Factors Impacting aTSA and rTSA for OA Treatment?**
Moderator Samuel Antuña, MD, with panel Mandeep Virk, MD, Richard Friedman, MD, FRCSC, Chris Peach, MD, FRCS, Montserrat Garcia Portabella, MD, Allan Wang, MD, PhD, Roberto Ikemoto, MD

5:25pm Break

SESSION TWO: TREATMENT SOLUTIONS FOR DIFFICULT GLENOIDS

Moderator Sean Grey, MD

5:45pm Panel Case Review: **The Experts Approach to Managing Complex Glenoid Defects**
Moderator Sean Grey, MD, with panel Ian Byram, MD, Scott Trenhaile, MD, Alberto Rivera, MD, Chris Peach, MD, FRCS, Umile Giuseppe Longo, MD, PhD, Kotaro Yamakado, MD

6:15pm Augmented aTSA Glenoids: Indications and Results
Richard Jones, MD

6:23pm Augmented rTSA Glenoid Baseplates: Indications and Results
Peter McCann, MD

6:31pm Discussion

6:35pm Table Case Review: Treating Difficult Glenoids – A New Hope or the Force Awakens
Curtis Noel, MD

7:00pm Adjourn

7:15pm Meet for Dinner Transportation

7:30pm Dinner

FRIDAY, JUNE 10

7:00am Breakfast

SESSION THREE: EXACTECHGPS® PLANNING & SURGICAL NAVIGATION

Moderator Moby Parsons, MD

8:00am Panel Discussion: **What is the Bullseye: A Number or a Range?**
Moderator Moby Parsons, MD, with panel Gabriella Ode, MD, Ari Youderian, MD, Robert Jan Hillen, MD, PhD, Ben Gooding, FRCS, Montserrat Garcia Portabella, MD, Sven Goebel, MD, FRACS

8:30am Analyzing Radiographic Glenoid Deformity: A Search for the Best Classification System
Samuel Antuña, MD

8:38am How I Preoperatively Plan with the Equinoxe Planning App
Richard Jones, MD

8:46am Re-Live GPS Shoulder Surgery featuring ErgoGPS Instrumentation
Ari Youderian, MD

8:58am Discussion

9:04am Accuracy of ExactechGPS Execution: Post-Op CT Implant Position vs. Plan
Ryan Simovitch, MD

9:12am Hitting the Bullseye! Use of ExactechGPS in aTSA and rTSA – Clinical Results
Raul Barco, MD

9:20am Discussion

9:24am Table Case Review: The Outlier – Planning and Management of the B2 Glenoid
Quin Throckmorton, MD

9:55am Break

SESSION FOUR: ACTIVE INTELLIGENCE®

Moderator Howard Routman, DO

10:20am Panel Discussion: **How I Use Predict+ in My Clinic**
Moderator Rick Papandrea, MD, with panel Bradley Schoch, MD, Gabriella Ode, MD, William Aibinder, MD, Pierre-Henri Flurin, MD, Bruno Gobbato, MD

10:50am What Happens When Artificial Intelligence and ExactechGPS Come Together? Computer Vision.
Howard Routman, DO

10:58am Using Machine Learning to Predict Outcomes After Shoulder Arthroplasty
Moby Parsons, MD

11:06am Predict+ Initial Clinical Experiences: Successes and Lessons Learned
William Aibinder, MD

11:14am Initial Clinical Result of VERASENSE™ Humeral Load Sensor – How Intraop Loading Changes with Different Implant Sizes and Patient Demographics
Carlos Torrens, MD

11:22am Discussion

11:30am Panel Discussion: **Future Meets Present – How Emerging Disruptive Technologies Stand to Alter the Way We Treat Shoulder Arthroplasty Patients**
Moderator Ryan Simovitch, MD, with panel Lawrence Gulotta, MD, William Aibinder, MD, Remi Charvet, MD, Umile Giuseppe Longo, MD, PhD, Allan Wang, MD, PhD, Bruno Gobbato, MD

12:00pm Lunch

**Not all devices discussed are available in every market.*

***Agenda and faculty subject to change.*

SESSION FIVE: TREATMENT SOLUTIONS FOR DIFFICULT HUMERAL CASES

Moderator Thomas Wright, MD

1:00pm Panel Case Review: **Bone Loss Challenges in Shoulder Arthroplasty, Humerus Edition**
Moderated by Thomas Wright, MD, with panel Curtis Noel, MD, Alberto Rivera, MD, Matthew Kent, FRCS, Angelo Di Giunta, MD, Robert Ikegami, MD

1:30pm Clinical Outcomes of the Humeral Reconstruction Prosthesis
Thomas Wright, MD

1:38pm HAT Initial Clinical Experience, Design Rationale, and Case Review
Howard Routman, DO

1:46pm Discussion

1:50pm Table Case Review: Treating Difficult Humeral Cases
Stephanie Muh, MD

2:15pm Break

SESSION SIX: COMPLICATIONS, REVISIONS AND UNMET NEEDS

Moderator Lawrence Gulotta, MD

2:45pm Panel Case Review: **Shoulder Disasterplasty!**
Moderated by Stephen Brockmeier, MD, with panel Joseph Zuckerman, MD, Oke Anakwenze, MD, King, Stephen Parada, MD, Matthew Kent, FRCS, Angelo Di Giunta, MD

3:15pm Factors Associated with Loss of Internal Rotation After rTSA
Jay King, MD

3:23pm Risk Factors for aTSA and rTSA Complications
Bradley Schoch, MD

3:31pm Incidence, Risk Factors, and Management of Acromial Fractures After rTSA: Where Are We in 2022?
Stephen Brockmeier, MD

3:39pm Discussion

3:45pm Panel Discussion: **Treatment of Scapular Fractures After rTSA**
Moderator Stephen Parada, MD, with panel Stephen Brockmeier, MD, Sean Grey, MD, Ian Byram, MD, Stephanie Muh, MD, Jae Chul Yoo, MD, Roberto Ikemoto, MD

4:15pm Panel Discussion: **Unsolved Mysteries- What Are the Unmet Needs for Shoulder Arthroplasty?** *Moderator Lawrence Gulotta, MD, with panel Quin Throckmorton, MD, Kenneth Faber, MD, FRCSC, Carlos Torrens, MD, Robert Jan Hillen, MD, PhD, Remi Charvet, MD, Jae Chul Yoo, MD*

4:45pm Future Innovations in Shoulder Arthroplasty
Lawrence Gulotta, MD

4:55pm Closing
Lawrence Gulotta, MD

5pm Adjourn

JUNE 9-10, 2022

NEW YORK, N.Y.

**Not all devices discussed are available in every market.*

***Agenda and faculty subject to change.*

FACULTY

William Aibinder, MD
Brooklyn, NY

Oke Anakwenze, MD
Durham, NC

Samuel Antuña, MD
Madrid, Spain

Raul Barco, MD
Madrid, Spain

Stephen Brockmeier, MD
Charlottesville, VA

Ian Byram, MD
Nashville, TN

Carlos Torrens Canovas, MD
Barcelona, Spain

Remi Charvet, MD
Grenoble, France

Angelo Di Giunta, MD
Catania, Italy

Kenneth Faber, MD
Ontario, Canada

Pierre-Henri Flurin, MD
Merginac, France

Richard Friedman, MD, FRCSC
Charleston, SC

Bruno Gobbato, MD
Jaraguá do Sul, Brazil

Sven Goebel, MD, FRACS
Perth, Australia

Ben Gooding, FRCS
Nottingham, England

Sean Grey, MD
Loveland, CO

Lawrence Gulotta, MD
New York, NY

Robert Jan Hillen, MD, PhD
Groningen, Netherlands

Hiroyasu Ikegami, MD
Tokyo, Japan

Roberto Ikemoto, MD
São Paulo, Brazil

Richard Jones, MD
Asheville, NC

Matthew Kent, FRCS
St. Helens, England

Jay King, MD
Gainesville, FL

Peter McCann, MD
New York, NY

Stephanie Muh, MD
Detroit, MI

Curtis Noel, MD
Akron, OH

Gabriella Ode, MD
Greenville, SC

Rick Papandrea, MD
Waukesha, WI

Stephen Parada, MD
Augusta, GA

Moby Parsons, MD
Portsmouth, NH

Chris Peach, MD, FRCS
Machester, England

Montserrat Garcia Portabella, MD
Barcelona, Spain

Alberto Rivera, MD
Ponce, Puerto Rico

Howard Routman, DO
Palm Beach Gardens, FL

Bradley Schoch, MD
Jacksonville, FL

Ryan Simovitch, MD
West Palm Beach, FL

Mark Tauber, MD, PhD
Munich, Germany

Quin Throckmorton, MD
Germantown, TN

Scott Trenhaile, MD
Rockford, IL

Umile Giuseppe Longo, MD, PhD
Rome, Italy

Mandeep Virk, MD
New York, NY

Allen Wang, MD, PhD
Perth, Australia

Thomas Wright, MD
Gainesville, FL

Kotaro Yamakado, MD
Fukui, Japan

Jae Chul Yoo, MD
Seoul, South Korea

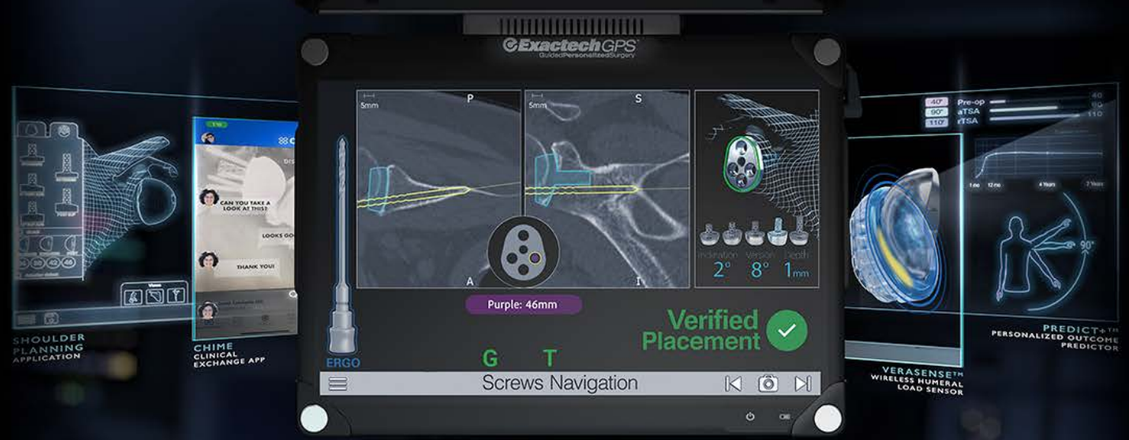

Ari Youderian, MD
Laguna Wood, CA

Joseph Zuckerman, MD
New York, NY

INTRODUCING

equinoxe® | ERGO®

Inpatient. Outpatient. Every patient.

Redefining the Status Quo

Designed to be ergonomic and efficient, with fewer trays per case, the sleek new **Ergo® instruments** are ideal for both the hospital and ASC. Fully compatible with the ExactechGPS® shoulder navigation system, Ergo instruments build on the design excellence and innovation central to the Equinoxe® system.

Visit **exac.com/ergo** to see how Ergo instruments can boost efficiency in your O.R.
